snow policy

SNOW POLICY

If snow is forecast that is likely to disrupt your travel and you still intend to bring your child(ren) to my(childminder) setting, please note the following. You will need to make emergency plans for another party to be able to immediately collect your child(ren). This is so that should I (childminder)contact you or ideally your emergency contact, to advise that my(setting) location has heavy settling snow, your emergency contact can then quickly collect your child(ren) and prevent the need for any children to be delayed going home from the setting, by the snow.
